

NEW WOOD FOR DURABLE DECKING

Purple heart is a tropical wood that's stronger and more durable than the decking boards in use now. It resists rotting, repels water and requires little maintenance.

Purple heart is very hard, so a carbide blade is needed to cut it and carbide tip bits to drill holes.

Order purple heart with NSN 5510-01-454-8568. Each board you order will measure 16 feet 4 inches long x 9 $\frac{7}{8}$ inches wide x 1 $\frac{1}{2}$ inches thick. The unit of issue is board feet (BF) and each board is 27.21 BF.

The minimum order is 250 BF. You need 325 BF to completely re-deck one trailer.
